

MATERIAL

- 6061 3/4X1/8 FLAT BAR (TWO PIECES 11.5")

REVISIONS

REV	DESCRIPTION	DATE	APPROVED
-----	-------------	------	----------

**NOTES**

THE DISTANCE BETWEEN HOLES IS CRITICAL AND TRIAL AND ERROR MAY BE NEEDED SO THAT THE JAWS JUST TOUCH AS THE HAND ACTUATOR REACHES ITS LIMIT. HAVE SUFFICIENT MATERIAL ON HAND TO MAKE MULTIPLE SETS OF TENDONS UNTIL THIS IS DIALED IN. EXACT DISTANCE BETWEEN HOLES WILL VARY DEPENDING ON FABRICATION OF THE OTHER COMPONENTS.
